PROFESSIONAL SUMMARY

Motivated Computer Science student with hands-on experience in full-stack development, AI/ML implementation, and web application development. Proven track record in building responsive applications, implementing modern frameworks, and deploying scalable solutions. Seeking software development opportunities to leverage programming skills and contribute to innovative projects.

WORK EXPERIENCE

Website Administrator & Developer — May 2025 - May 2026

Octoking — Remote

- Manage e-commerce website using PHP and WordPress, improving performance and SEO scores through optimization techniques
- Implement design changes and develop custom functionality for enhanced user experience and client satisfaction
- Optimized page load speeds and resolved critical error pages to ensure seamless site operation and improved user retention

Freelance Web Developer — 2024

Ocean Diamond Traders — Remote

- Developed and maintained comprehensive website using PHP programming and cPanel administration tools
- Delivered all project requirements within strict 2-month timeline while ensuring high code quality and best practices

PROJECTS

Health AI - Symptom Prediction System

GitHub — Live Demo

- Built comprehensive full-stack AI health prediction system using Flask backend and React.js frontend with modern UI design
- Implemented advanced Support Vector Classifier model analyzing 132 distinct symptoms to accurately predict 41 different diseases
- Successfully deployed on Vercel platform with fuzzy string matching, automated email notifications, and fully responsive UI design

IgniteVidya Vault - Academic Platform

GitHub — Live Demo

- Developed comprehensive VTU academic platform using Next.js 14, TypeScript, and Supabase PostgreSQL database architecture
- Implemented real-time multiplayer quiz system with WebSocket connections and AI-powered chat using Google Gemini API integration
- Built robust 13-table database schema with Row Level Security policies, automated CGPA calculator, and advanced full-text search functionality

TECHNICAL SKILLS

Programming Languages: Python, JavaScript, C, PHP

Frontend Technologies: React.js, Vite, HTML, CSS, Tailwind CSS

Backend Frameworks: Flask, Django, Node.js

Databases: SQL, MongoDB, Firebase, Supabase

AI/ML Tools: Scikit-learn, Google Gemini API, TensorFlow

Development Tools: VS Code, Code::Blocks, Postman

Design Tools: Figma, Canva

Cloud & Deployment: Vercel, Git, GitHub

CMS: WordPress, cPanel Administration

EDUCATION

Bachelor of Technology in Computer Science and Engineering

2022 - 2026

Moodlakatte Institute of Technology, Kundapura, Udupi, Karnataka

CGPA: 8.02/10.0

LEADERSHIP & ACTIVITIES

Workshop Conductor: Successfully organized and conducted multiple technical workshops for junior students, receiving consistently positive feedback and helping improve their practical coding skills through hands-on learning sessions and mentorship

Event Coordination: Actively assisted in coordinating various technical events in college coding club, providing valuable support in event planning, execution, and logistics management to ensure successful outcomes

ADDITIONAL INFORMATION

Languages: English (Fluent), Hindi (Fluent), Kannada (Native), Tulu (Native)

Core Strengths: Quick adaptation to new environments and technologies, strong work ethic with consistent delivery, project completion focus with attention to detail, collaborative problem-solving approach

Personal Interests: Competitive Gaming and Strategic Problem-Solving, Open Source Development and Collaborative Coding, Technology Blogging and Knowledge Sharing, Chess and Analytical Logic Puzzles, Digital Photography and Creative Expression, Football and Team Sports Activities
